LEARNING CENTER

Webinar Trainings for Early Educators

Since 1999, Lee Pesky Learning Center has provided high-quality, research-based professional development services. Our mission is to develop pathways to learning for everyone by creating self-regulated learners who are connected, self-aware, self-determined, strategic, and resilient. Our expert trainers have decades of teaching experience. To ensure quality implementation of the practices presented in our trainings, we also provide coaching and follow-up support.

Webinar Training Costs: \$300/hour for groups up to 25 participants, plus the cost of materials and shipping (see class descriptions). Trainings can be broken into convenient segments of time from 2-hour sessions to 6-hour sessions.

Understanding and Supporting Social Emotional Learning (6 hours)

Social emotional learning lays the essential foundation for all learning. This training is designed for early educators who work with preschool-early elementary children. Participants will learn strategies for helping children become more connected, self-aware, strategic, self-determined, and resilient! This class is filled with video demonstrations.

Every Child Ready to Learn (6 hours)

This class provides early educators with an overview of important foundational literacy and math skills areas: language and vocabulary development, print awareness, number sense, spatial awareness, comparing, and problem solving. Participants will learn activities that are designed for infants, toddlers, and preschoolers to help foster the development of these skills and view video demonstrations. The class comes with our Every Child Ready to Learn book. **\$16/participant plus shipping costs** (Learning mats are optional cost)

Implementing Daily Literacy Routines for Preschool Teachers (6 hours)

This course shows how to implement five research-based literacy routines proven to improve literacy skills for preschool-aged children when practiced daily. Educators will learn activities to support phonological awareness, language development, and print awareness. These engaging and developmentally appropriate literacy activities can be easily implemented to become part of any daily routine and work with any curriculum. **\$100/ participant for materials (laminated ABC and rhyming mats, activity cards, alphabet cards, and handouts) plus shipping costs**

This training is also available for early educators who work with infants and toddlers. \$50/participant for materials plus shipping costs

Every Child Ready for Math (6 hours)

The goal of this class is to help preschool teachers create rich math experiences for children, while also fostering language development. Participants will learn how to develop important number, counting, space, shape, and measurement concepts through purposeful, engaging activities and games. Participants will become more aware of math opportunities that occur throughout the day. Ideas to promote the home-school connection will also be presented. **\$20/person for materials plus shipping costs**

Engaging Read Aloud Strategies that Promote Language and Comprehension Skills (3 hours)

This class will help preschool teachers enhance their read aloud experiences with fun, engaging dialogic reading techniques to build language skills and deepen comprehension. Teachers will see videos of these techniques in action and get a chance to practice some of the techniques.
